History of Mysteries

Humanity on Earth is riddled with a long history of mysterious events, monuments, legends, folklore and puzzles. For centuries we have centered our science, art and religion on concepts and ideas that elude our present cognition. Were extraterrestrials perceived as gods? What technology was available for constructing things like the pyramids and Stonehenge? What happened to the Mayan civilization? Where is Atlantis?

What we cannot answer on this planet may be revealed on the dark side of the Moon. This lunar landing is no myth... We can prove it. Join in this year's lunar voyage to reveal or to just revel in our History of Mysteries.

If we build a pyramid on the moon, can we complete the energetic grid? Can we finally communicate with aliens by building our own crop circles? Is this a maze to the center of consciousness or just a historical rabbit hole which only reveals more questions? Is the answer to the universe really 42? Were unicorns real? Could you pass the Sphinx's riddle? Maybe the Clinch River really is the fountain of youth!

There are two things that could happen when diving deep into solving some of these mysteries. Either we uncover some new truths, new languages, new rituals, or we create even more mysteries, mazes, puzzles and traps. Choose your own adventure.

This year's art theme will illuminate our most ancient questions, visions and anomalies, sacred geometry and secret mythologies.

Build a maze,
or
Bust a myth
Solve the riddle
Leave with more questions than you
arrived with

The world will soon know what rests
on the dark side of the moon

Only for a fleeting moment will all be
revealed

In the flames of our odyssey
History will be made history once again
And the mysteries will remain
To be told merely as stories of what
happened when we
journeyed across the universe and...

1 Welcome to the Moon, Traveler!!!

Mission

A Burn is a multi day art and music camping event the intent of which is to build like minded community and to share: your time, food, gifts, art, love, toys, and talents and participate in creating something in the process that inspires beyond measure.

"A unique and distinctive culture emerges from "The Burning Man" Experience. Rooted in the values expressed by the Ten Principles, this culture is manifested around the globe through art, communal effort, and innumerable individual acts of self expression. To many, it's a way of life." -Burning Man

To The Moon

Burns reconnect one to their inner child and Merkabah, the divine light vehicle used to tune into the far realm of possibility and innovation.

Embark with us on a journey to the outer rims of creativity, art, music, and community as we initiate a collective experience geared towards positive transformation, endless inspiration, and participatory co-creation. Bring your SELF, your talents, your radical self-expression, and your stardust TO THE MOON and back as we travel together further than our own imagination. You get out of it what you put int.

Simply put, we play with fire and run with scissors in a space shaped by our fantasy and that which is conjured up by our inspiration and elbow grease.... the sky is the limit.

...And Back

Art, Participation, Fire Play, Music and so much more motivate this community to build a temporary dwelling in which there is no stranger nor are there spectators. Everybody

pitches in and brings something to the table. We stare at the clouds, dream in dust, set fire to the rain and howl at the moon.

A Burn is an incredible way of learning first-hand the experience of the Whole being greater than the sum of its parts.

It's a place where participants gather to celebrate self-expression and community who happen to know how to throw a party. They conceive and build interactive theme camps, art installations, mutant vehicles, costumes and performances, and they gift them for the benefit and enjoyment of each other!

Art Camps, Theme Camps, Sounds Camps all are an integral part and at the heart of this experience. The event comes to a climax with the burning of the Effigy Saturday night, and usually ends after Sunday's Temple Burn.

The culture rallies around causes and activism from local art exhibits to food and coat drives to Burners Without Borders - spearheading change, inspiring involvement and making a splash!

"In Dust we trust....."

2 In-Flight Procedures

Once you're at [To the Moon \(TTM\)](#), you'll want to keep gate hours in mind (if you leave), and before you finally pack up to go to your rest-of-the-year home, please take a moment to read through our takeoff procedure!

Gate Hours

No vehicles will be allowed in after sunset! No moving vehicles *period* inside the burn when it's dark - so if you get there right before sunset, you better get in, unload your stuff, and get right back out to parking ASAP. This is for the safety of everyone at the burn!

Any vehicles that arrive after sunset will be redirected to parking, where we may or may not have a golf cart to help you carry some stuff in — but don't count on it — use that Radical Self-Reliance!

Re-entry Procedure

There is no after hours entry without pre-arranged permission. Crew arriving at the site outside gate operating hours will be turned away. No crew is permitted to wait on the property until the gate opens.

Please contact the [Board of Directors \(BOD\)](#) via connect@tothemoonburn.com well in advance of the event to work out options if long-distance travelers cannot arrive while the gate is open.

For the safety of other patrons and to preserve the integrity of the experience, **no** coming and going at leisure is allowed after checking in. Exiting and returning [TTM](#) are reserved for medical and emergency reasons **only**, and must be communicated to and cleared by the Gate Lead prior to leaving.

Theme Camp supply runs are possible Wednesday – Friday before 10pm **only**. Before leaving, [check at the gate](#) if a pass is needed. The Gate will check with [Event Lead \(EL\)](#) on call and a re-entry lanyard will be issued at [EL](#) discretion.

Takeoff Procedure

Leave No Trace

[TTM](#) follows the [Leave No Trace \(LNT\)](#) principle (see [Ten Principles](#), page 8). Please take all your belongings, trash, and [gray water](#) with you and leave the site in a better shape than you found it.

Takeoff Launch Window

[TTM](#) officially closes at 11:59pm EST, Sunday, June 17th. All crew must vacate the site by 12pm EST, Monday, June 18th unless given explicit prior permission from Theme Camp Late Departure.

Vehicles can be driven on site on Monday to pack up. In case of inclement weather, a no driving / limited access policy to site will be implemented. Be prepared by bringing your own cart / wagon to transport gear out and to your vehicle. [Lunar Orbit Vehicle Extraction \(L.O.V.E.\)](#) will be able to assist with shuttling gear to parking. Vehicles can **not** be parked alongside road to do so, but only be lined up at gate about 10 at a time.

Please look for announcements at [COCKpit / Gate](#), as this policy may slightly change, depending on situation.

Resources

Showers

There are no showers. To keep yourself clean, bring wet wipes or biodegradable soap. Please don't clean your dishes or yourself in the river since there are mussels in the river that are protected wildlife. (And these are also the reason you should wear river shoes while in the river as the mussels will cut you. They're mean that way.)

Ice

Ice will be sold from noon to 3 pm every day for \$2 per 10 lbs bag. Cash only! Bring small bills please.

Lost and Found

The Lost and Found will be at the [COCKpit](#) / [Volunteer Coordination \(VC\)](#) station.

Port-a-Potties

There are Port-a-Potties on-site. Please don't put anything other than one-ply toilet paper and human waste in the Port-a-Potties. You will find Port-a-Potties in multiple locations across the site.

3 Astronaut Training

Guidelines

We have few rules and kindly ask you to follow them, for your safety and those around and with you. Look at them as a compass to orient yourself by while drifting in the orbit of this event.

Safety

Safety is our number one concern and breaching perimeter is a **serious** offense we will handle swiftly.

Fire Safety

- **If you breach effigy or temple perimeter, you will be removed from the property immediately – no questions asked!**
- No open ground and / or unattended fires. They must be contained and off ground. Please bring a fire bowl for this purpose. If you see a fire that is unattended or out of control, contact a Ranger immediately.

River Safety

- Children under 13 must wear a flotation device.
- Children under 13 must wear water shoes (water shoes are highly recommended for **Anyone** for added safety and traction, especially if caught in a current).
- All minors must be accompanied by a parent or legal guardian when in the water.
- **Anyone caught committing the below two actions will be ejected from the burn immediately:**
 - No jumping or diving off the bank into the river.
 - No swimming after dark.

No Pets

Spirit Crossing has a **no pet** policy! Should you need a service animal's assistance to safely navigate our premises, please let us know at the gate. A "service animal" is a dog (or other animal) individually trained to do work or perform certain tasks for a person with a disability.

Please be prepared to answer the following two questions so we may better determine at our discretion if your animal falls under the Service Animal Category, and in order for us to be in compliance with ADA regulations:

- Is the service animal to the direct benefit of the disability?
- What tasks and what work is the animal trained to perform in direct relation to the disability?

For your convenience, Scooby Shack Kennel is 20 minutes from Sneedville and can be reached at 423-921-0611.

Thank you for your cooperation and understanding!

Respect the Laws of the Land

Spirit Crossing, and Sneedville, are kind enough to be our home. Here are some helpful tips on respect:

- The property owner's house is off limits to participants. Please be respectful of the land and grounds.
- Although held on private property, TN Nudity Laws still apply. Please plan on wearing pasties, bikinis, loincloths, etc.
- Please respect the land, the river, and the community. Obey the speed limits and be courteous to those around you.
- When in doubt, practice **consent**!
- TTM is an all ages event. Those who are 21 or older will have a special wrist band indicating that they are able to legally consume alcohol. Please consume in moderation.

Fireworks and Effects

Fire effects with registered Theme Camps only, please.

Gifting

This is a gifting community, providing refuge from everyday societal perils. Once you're inside, no commercial activity takes place. Which is part of the charm, and the point :) Sometimes, there is a bit of a misconception of "Oh, so it's a barter system?" – Actually, it's not. It's a "Gifting" Principle. You gift without the expectation of a gift in return. You gift something to someone because at that moment, you feel the other person should have the very thing you'd like to give.

Minors

Minors must be accompanied by a parent or legal guardian. If they cause problems during the event which lead to possible safety issues or are a severe nuisance to others, we may ask you to remove the offending minor, possibly your entire camp. Minors are NOT allowed to use, play with, operate nor hold fire, fire props, fire effects and pyro, including poofers.

Recharging batteries for medical equipment

Those with CPAPs and electronic scooters will have to make their own arrangements to recharge batteries. **TTM** does not provide battery recharging stations for medical equipment.

Some theme camps have generators, and may allow use of a spare generator plug for recharging medical equipment as a way of **gifting**. Home Depot and other companies also rent generators. Moreover, there exist solar panels for recharging CPAP machines, though those can be prohibitively expensive.

Photography

Please respect the right of others who may not wish to be photographed. Ask **permission!** If you see someone with a **blue** wristband, that is a **no photo** policy indicator. Do not take pictures or video of participants wearing them!

Sound

To make this event enjoyable for all, amplified sound is limited to 300 Watts producing 90 db at 20 feet. All amplified sound is to be reduced after 4am nightly to allow room for acoustic and ambient sound and to limit the possibility of neighboring sound complaints.

Wristbands

You will receive a wristband when you arrive at the **Gate**. Different colored wristbands will identify you as being over 21, under 18, etc. Wristband colors also indicate if you don't want your photo taken.

You must keep your wristband on at all times. See the **Gate** if you need to replace your wristband.

Vending

No vending, selling, or promoting is allowed at the event.

Community Standards

The Ten Principles

Table 3.1 on page 9 enumerates the 10 Principles of **TTM**. Funny thing about those: they are not meant to be chosen at random to suit ones need, mood or agenda, but according to our interpretation were created to work together as a whole. Meaning your right to radically and freely express yourself ends when your expression infringes upon another participant to do the same. In other words, they're not a "Getting out of jail free" card, nor a permission slip to be a dick. So don't be a dick, hiding behind one or two principles.

No.	Principle	Description
1	Radical Inclusion	Everyone is welcome, all types, all kinds, friends, strangers, and in between.
2	Gifting	Gifts are unconditional offerings, whether material, service oriented, or even less tangible. Gifting does not ask for a return or an exchange for something else.
3	Decommodification	Hand in hand with gifting, burns are environments with no commercial transactions or advertising. Nothing is for sale - we participate rather than consume.
4	Radical Self-Reliance	You are responsible for you. Bring everything with you that you need. Burns are an opportunity for you to enjoy relying on yourself.
5	Radical Self-Expression	What are your gifts, talents, and joys? Only you can determine the form of your expression.
6	Communal Effort	Cooperation and collaboration are cornerstones of the burn experience. We cooperate to build social networks, group spaces, and elaborate art, and we work together to support our creations.
7	Civic Responsibility	Civic responsibility involves the agreements that provide for the public welfare and serve to keep society civil. Event organizers take responsibility for communicating these agreements to participants and conducting events in accordance with applicable laws.
8	Leaving No Trace	In an effort to respect the environments where we hold our burns, we commit to leaving no trace of our events after we leave. This means everything that you bring with you goes home with you. Everyone cleans up after themselves, and whenever possible, we leave our hosting places better than we found them.
9	Participation	The radical participation ethic means you are the event. Everyone works; everyone plays. No one is a spectator or consumer.
10	Immediacy	From the Burning Man website : "Immediate experience is, in many ways, the most important touchstone of value in our culture. We seek to overcome barriers that stand between us and a recognition of our inner selves, the reality of those around us, participation in society, and contact with a natural world exceeding human powers. No idea can substitute for this experience."

Table 3.1: The 10 Principles

The 11th Principle – Consent

TTM has adopted the 11th Principle, Consent¹.

Touch: Just because you hugged someone yesterday doesn't mean you can surprise them with a hug today. "Surprise contact" isn't always wanted, even if it's affectionate.

Foods: Disclose the ingredients, one person's innocuous ingredient can be someone else's allergy.

Kink: Consent for one thing isn't consent for another. If I said you can spank me, that doesn't give you permission to grope me.

Sex:

Consent can be revoked once it's been given.

Gifts:

Disclose what is in your gifts, even if it's just essential oils. Some people have sensitivities.

Photography:

Ask before taking pictures. Remember consent to take a picture is NOT consent to post it on your blog.

4 Volunteering

No burn exists without volunteers and volunteers are our heroes! We have no hired help other than security and everything we do is done on a volunteer basis. This goes for all the things before, during, and after the burn. All the teams that you can volunteer for are described in the "Crew Manifest" section starting from page ??.

There are two ways to volunteer:

Before the event you can sign up from the available volunteer activities by going to:

<https://www.signupgenius.com/tabs/33773df01a4c3edc42-tothemoon>

During the event you can go to the **VC** folks at the **COCKpit** to sign up for an available volunteer slot.

EARLY ENTRY FOR VOLUNTEERS

If a participant has a volunteer shift on Wednesday, they will be granted entry at noon on Wednesday.¹ If a participant has a volunteer shift beginning before noon on Thursday they will be granted early entry on Wednesday after 3 pm. This list will be given to **Gate** from **VC** before **Gate** opens opens on Wednesday.

All participants must be off site by noon on Monday unless they have a shift on Monday after noon. In which case they will need to have permission from **VC** or one of the **event leads** to stay on site for that shift, and should stop by the **VC** tent on Monday before 10 am to get their approval. All late stay volunteer must also have their camp packed before their shift on Monday and be prepared to leave immediately following that last shift.²

5 Art

Ancient Mysteries

An 80' wide by 10' tall ancient mysteries mural by Dima Yastronaut. It will illustrate ancient architectural sites such as mythological gods and creatures throughout all of history, architectural sites, pyramids and sacred temples from around the world. Compiled together with thousands of layers of ancient history, sacred geometry and symbolism.

BAR[ge]

Avast ye scurvy landlubbers, step on board and get ready to set sail on the maiden voyage of the BAR[ge]. This year, the Clinch river will be more naughty and nautical than ever before! Join us for refreshments, sing along with our BARgetenders' favorite chanties, plunder the booty and heave-ho three sheets to the wind!

Blacklight creation cave

The blacklight bubble cave is a replica of a real-life cave, protected by the Dogon tribe in Africa. Paintings displayed on the cave walls were received from a mysterious group of fish-like people (Nammo) who came in from the sky and landed in a lake, there on the doorstep of this tribe to share their wisdom of the universe and their home star system. We are lucky enough to have this wisdom at The Moon this year, and through technological miracles, we have constructed a blacklight wormhole tunnel to ping you up to Sirius B to ask the Nammo yourself about the wonders of the universe ;)

Comet in Stasis

A suspended sphere of glowing, pulsating lights encased in ice, the Comet in Stasis brings the a cool, refreshing presence to the Moon. This project consists of a robust stand and a ball of ice that is replaced every night. The ball of ice (Comet) itself is 1 foot in diameter with LEDs embedded in the center. It hangs suspended at chest level from a chain. The LEDs in the center of the Comet pulse with otherworldly patterns, attracting lunar-tics from all across the Moon's surface. Once enthralled by the Comet's otherworldly glow, burners can touch and play with the ball of ice, offering a reprieve from the heat of the lunar surface.

Cafe Burns Misting Station

Cooling Misting Station

Dear Future Me,

I will lay out paper, pens, and envelopes and will ask people to write a letter to themselves, which they will then enclose in an envelope and place in a box. I will then mail all of the letters out at an undisclosed future date! Surprise yourself with a blast from the past!

Fairy Circus

Coming from Hollywood Florida The Fairy circus is a 24ft aerial rig decorated with different colored fabrics. At the top of the aerial rig we will have different kinds of ivy and flowers hanging to make it magical. will be doing aerial silks performances every night and teaching aerial silks during the day and I have insurance for both. Kassi Abreu will be performing on her Lyra every night as well as any other aerialist who want to play. We really love what we do and being able to share it with so much love!

Filia

Filia is a crystal grid, named for the Greek word for friendship. With a total of seven points there will be podium style stands which will hold beautiful large examples of each crystal and a placard explaining the grid which point you are at and where others points of the grid are located. They will be lit up at night. The friendship crystal grid is made up of three different types of crystals citrine, amazonite, and carnelian. Smoky Citrine (the focus stone) will help to attract good earth energies. Amazonite (the way stone) will bring us understanding and open mindedness. Carnelian (the desire stone) will bring loyalty faithfulness and support. This grid is known as the Borromean rings which is the design of stabilization and unity. This design will work well with our placement as all points will be placed along the roadside of the already existing roads at TTM. It just so happens the shape of this grid is divinely a perfect shape!

Gerlach The Friendly Triffid

If you see wriggling and curling tentacles, you'll know you've found Gerlach The Friendly Triffid. Everything it does is automated. The only human input is from you.

Hammock City!

A peaceful place to hammock and recharge.

Kinesios

40'-0" tall Burning Man Sculpture. Kinesios is focused on participants interacting to experience a place between order and chaos.

Lunar Fire

A fire plate of four crescent moons (2 large, 2 small) emit flame all along the outline. The 2 circles are both; an open hole in the plate where the sky is visible, and propane outlet similar to the crescents, but larger, and these will be the push button flame/flood effects.

Lucid Lounge

Lucid Lounge consists of a large covered octagonal PVC framed structure / decorated space with bed and gongs inside intended for sound healing and is not a chill space, but intentional guidance and gong / singing bowl sessions with prior signup.

Lucid Lounge will also host several yoga sessions on the platform when no sessions are taking place, overlooking the fields and river.

Mirrorverse

I was inspired by the infinity mirror exhibit to make my own infinity box that contained art that would be reflected by the walls and roof. Hanging lights will be an addition at night. Making the floor into a longstanding mirror may be an addition for another year. To assemble the room at the burn will not use any screwing, but rather groove fits and heavy duty toggles making it easier to disassemble and reassemble. At least one of the walls will be made into an infinity mirror.

Moon Shuttles

Last year, we were excited to receive a grant for the Moon Shuttles! We are excited to bring out four Moon Shuttles (Heavy duty Garden carts/wagons) back this year, decorated in accordance with this burn's theme A History of Mysteries. The Moon Shuttles are located at the Shuttle Station that will be set up at Greeters. Moon folk can use the shuttles to carry gear to their camps, pick up ice, transport gifts, haul general items around the site, etc. This year we will have two shuttle station, one at the front gate and then the other at our camp.

Pieces of Us

A gallery display of mixed media collage pieces focusing on illness, birth, life, death, love, and success.

Pocket Dimension Waystation

A wall of small cabinets, each containing a tiny dimension inside! Guests are invited to play with the lights and discover "secret" interactive components in each scene! There will also be Dimensional Objects on display by the cabinets for guests to look at and play with! The outside of the Waystation will be covered in masks that everyone is welcome to try on and play with. The masks will be gifted away throughout the weekend!

Pussy Pagoda

A feline inspired multi-tiered tower built in the traditions and in rendition of historic Asian culture. An immersive 6 sided base scaffolding structure wrapped in playa-tech design to form a bar like setting which will be host to a hookah and CBD lounge at this years moon. Kittens can climb their way to the second tier perch built from metal pallet racking shelves and more scaffolding which will host a multi-faceted sensory filled exploration and kitten cuddle puddle.

Tetra Borealis

Originally built as the entrance tunnel for Love Burn 2019 in Miami, Tetra Borealis is a shimmering kinetic sculpture and tunnel that reacts with the wind. It is made from a net covered in nearly 5000 shimmering strips of dichroic film that sit upon a metal frame. As the wind blows, the 4ft long strips undulate in the wind, changing colors as they move.

The Bermuda Pyramid

Join us for an immersive fiber arts flow experience when you come to kick it in the Bermuda Pyramid! It has been known for centuries to trap many souls, so bring a friend or four! Get some flow time, some rest, water, or come and get some perspective laying under our giant crystal pendulum when the space is clear.

The Cooler

What's cooler than being cool? Popsicles, duh. Come on down to Spontaneous Combustion [prevention] and reach into the Cooler for a refreshing popsicle, or step your whole body inside and become a human popsicle in our air conditioned cuddle-puddle!

The Intention Ascension Invention

The Intention Ascension Invention will consist of a table with note cards on it and markers/pens for writing on these note cards a wish, fear, goal, problem, or intention that a person has. Others will come and read these anonymous note cards and will be asked to intentionally send positive vibes out into the universe directed at these people who have written on the note cards. Then, they can leave their own note cards. If a person particularly relates to a certain note card and wants to reach out, they can leave contact info or a note of encouragement or advice, whatever they are comfortable with, and leave it in a closed envelope behind the person's note card so that person can come back to it and read it later.

The Lost Temple of Magdaluna

The Moon

..... meow.

The Oracle Is...

You are invited to take a seat at a Charlie-Brown-like fortune-telling desk with two chairs on either side and a marquis which says "The Oracle is" and a flippable sign that says "In" on one side and "You?" on the other. Participants can either dispense or receive fortunes, insights and other clairvoyances.

The Satin Worshippers Dome

A lounge space decked out in satin cloth

The Visitors

The Visitors is a flying saucer hovering in the sky over To the Moon, abducting participants wherever it goes. This is a companion piece to the TTM effigy, since it is increasingly clear that aliens ("the visitors") are the true architects of the Pyramid (effigy). The Visitors will be used as such for a party at the effigy as well as dance and other events throughout the burn. The spaceship will be 16ft in diameter with intelligent lighting, programmed LEDs, a disco ball, and a fog machine all focused down towards the ground. The Visitors will utilize the DPW/Effigy teams' VR forklift, turning it into a mutant vehicle at night. This will allow us to fly The Visitors over anything at the burn, including the effigy.

The Zoltar Booth

Come by the Zoltar Booth and have your fortune told, make a wish, play Truth or Dare, consult the Magic 8 Ball or just get some good (or bad) advice. Just be careful what you wish for... don't ask for anything too "Big".

Be on the lookout for such infamous wish/luck bringers as the mystical Zoltar, Al-

addin's Genie of the Lamp, a large white Rabbit (this isn't "Harvey"), or one of those pesky Leprechauns as they man the booth and wander the event. Catch them for all kinds of surprises ((no tackling please – wish bringers are fragile and startle easily)).

{Would you like to participate? Can you tell fortunes, belly dance, or perform cool tricks? Do you have a snazzy outfit and would you like to be Zoltar for an hour or two. Message me (ouijacat.tothemoon@gmail.com) or sign up at the Booth.}

The Space Dome

Our Dome is a social environment for people to find shelter from the sun and make new social connections while enjoying the comfiest of social areas. The floorspace is filled with stuffed animals and other soft cushioning to give hippies a place to kick off their shoes and fall into a pit of plushness. Around the edges are chairs for those who wish to retain their foot-prions. The framework of the dome has reflective mylar stretched over it for protection from the sun and rain, and is lined with LED strips from top to base. It's the perfect spot to take a break from the noise outside while surrounded by a shifting spectrum of colors shooting in all directions. It's a great place to relax, chat, or sleep without getting bored.

To The Moon Postcard Photo Frame

The To The Moon Postcard Photo Frame is a 6' x 10' decorative frame mounted on poles with a moon surface to sit on along with a camera / phone stand set at a measured distance. This will enable people or groups of people to take timer set photos from their own devices so everyone is included in the shot. The background of the image will be the property.

Tree Star City

Multiple tensile tents, hammocks, and extra large dream catchers all hanging in the trees on the hill.

Truffula Tree Grove

Draw Your Own Art Here!

Ten brightly colored truffula trees, inspired by Dr. Seuss' The Lorax. With fiber optics and led lights, the trees light up the night and provide a strange, beautiful space for burners to lounge on mats and relax.

Web Lounge

Giant crocheted rope web hammock. Comfortably holds a dozen people. Nice chill space with lots of fans in day and lit up at night. This year is going to be extra special. In the past I was bound to the colors that home depot would provide. Since I have learned the art of making rope. I have all the colors to play with now. With a little help This year will be my first true masterpiece. A mandala with purple, blue, teal, green, yellow , red!!

Wormhole

Wormhole is an interactive led light tunnel. It's intended placement is in between effigy and temple as clear bright pathway between the two. We've played with this idea in 2017 and at a small scale was a great success thanks to Gabi! The Wormhole is 40ft long on an elevated platform with a continuous 1" programmable led poly tube that is 400 ft long swirling around you as you make it from one end to the other.

You are Water. Our inner Yemaya. 8th Ocean Body.

A sculptural interactive art installation homage to our ecosystem in balance, made from orgonite talismans paying tribute to bio-remediation. An art piece to honor the interconnection between life and the heavenly bodies of the Earth and the waters, to encourage people to respect water.

Axis Mundi Workshop // Climbing the Cosmic Ladder: A Conversation

Location: Axis Mundi
Time: 3:30 PM – 4:30 PM

Axis Mundi is known as the hub or axis of the universe, interpreted by many cultures in a wide spectrum of ways. However, the central theme among the sacred symbols is the connection of the underworld, the Earth, and the sky – a dichotomy of integration (oneness) and distance (separate-ness). The roots run deep between theology, culture, and the understanding of the universe (which we now call cosmology). Has the universe come into existence a finite time ago? How did it come to be? Will it come to an end? Why are the cosmic evolution and the laws of nature of such a kind that they permit intelligent life to exist? Ancient questions like these have weighed heavy on the curious minds before us, and many still to this day. With some basic concepts and an open mind, we can begin to make sense of the role that the universe itself has played in humanity's spiritual pursuit of self-actualization. Take an afternoon journey into the cosmos with your astral guide, Minx!
