

To the Moon

Flight Manual

Final — June 14–17, 2018

SPIRIT CROSSING
SNEEDVILLE, TENNESSEE

Theme

eleMENTAL

Art is ELEMENTAL

Air moves us

Fire transforms us

Water shapes us

Earth heals us

We chose the theme this year as a reflection of the pieces of our environment we harness to create. An eleMENTAL homage in the form of our collaborative creations as a growing lunar community this year at Spirit Crossing.

To The Moon 2018 will embrace all the elements coming together to generate an experience of synergy and expression. The moon controls the tides, the very water which we are blessed to share our space with at Spirit Crossing. This year we want to bring more conscious energy to the pristine Clinch River and the access we are lucky to play in.

The fire experienced at this burn is unequaled and is the reason we gather. We walk upon the earth as stewards of creation and protect the sovereignty with which we were trusted in this spectacular setting at Spirit Crossing.

The clear air swirls with us as we dance into the sunrise.

This weekend will be a complete experience where we touch and shape ourselves and our surroundings with the help of each ELEMENT, reflected within and expressed through us and the art we share.

"... we are all little MENTAL here."

1 Welcome to the Moon

Welcome [To the Moon \(TTM\)](#), traveler!!!

Mission

A Burn is a multi day art and music camping event the intent of which is to build like minded community and to share: your time, food, gifts, art, love, toys, and talents and participate in creating something in the process that inspires beyond measure.

"A unique and distinctive culture emerges from "The Burning Man" Experience. Rooted in the values expressed by the Ten Principles, this culture is manifested around the globe through art, communal effort, and innumerable individual acts of self expression. To many, it's a way of life." -Burning Man

To The Moon

Burns reconnect one to their inner child and Merkabah, the divine light vehicle used to tune into the far realm of possibility and innovation.

Embark with us on a journey to the outer rims of creativity, art, music, and community as we initiate a collective experience geared towards positive transformation, endless inspiration, and participatory co-creation. Bring your SELF, your talents, your radical self-expression, and your stardust TO THE MOON and back as we travel together further than our own imagination. You get out of it what you put in.

Simply put, we play with fire and run with scissors in a space shaped by our fantasy and that which is conjured up by our inspiration and elbow grease.... the sky is the limit.

...And Back

Art, Participation, Fire Play, Music and so much more motivate this community to build a temporary dwelling in which there is no stranger nor are there spectators. Everybody pitches in and brings something to the table. We stare at the clouds, dream in dust, set fire to the rain and howl at the moon.

A Burn is an incredible way of learning firsthand the experience of the Whole being greater than the sum of its parts.

It's a place where participants gather to celebrate self-expression and community who happen to know how to throw a party. They conceive and build interactive theme camps, art installations, mutant vehicles, costumes and performances, and they gift them for the benefit and enjoyment of each other!

1 Welcome to the Moon

Art Camps, Theme Camps, Sounds Camps all are an integral part and at the heart of this experience. The event comes to a climax with the burning of the Effigy Saturday night, and usually ends after Sunday's Temple Burn.

The culture rallies around causes and activism from local art exhibits to food and coat drives to Burners Without Borders - spearheading change, inspiring involvement and making a splash!

Struggle-Free Route (Green)

The fastest routes to Spirit Crossing are full of switchbacks to avoid various objects in orbit. If your spaceship is rather large or you haul a shuttle, we recommend the struggle-free route. You can find this route on the maps highlighted in green.

1. Begin on I-40, headed towards exit 392 for US 11W N/Rutledge Pike/Knoxville Zoo.
2. After 5.9 miles, turn left onto TN 61E. This road will turn into TN 131N.
3. After about 16 miles you will pass through the small town of Washburn, in which the road takes a couple of wiggles left and right. Stay on the main road as you pass through. On your way out, you should pass a Dollar General on your left.

No vehicles will be allowed in after sunset! No moving vehicles *period* inside the burn when it's dark - so if you get there right before sunset, you better get in, unload your stuff, and get right back out to parking ASAP. This is for the safety of everyone at the burn!

Any vehicles that arrive after sunset will be redirected to parking, where we may or may not have a golf cart to help you carry some stuff in — but don't count on it — use that Radical Self-Reliance!

Re-entry Procedure

There is no after hours entry without pre-arranged permission. Crew arriving at the site outside gate operating hours will be turned away. No crew is permitted to wait on the property until the gate opens.

Please contact the [Board of Directors \(BOD\)](#) via connect@tothemooonburn.com well in advance of the event to work out options if long-distance travelers cannot arrive while the gate is open.

For the safety of other patrons and to preserve the integrity of the experience, **no** coming and going at leisure is allowed after checking in. Exiting and returning [TTM](#) are reserved for medical and emergency reasons only, and must be communicated to and cleared by the Gate Lead prior to leaving.

Theme Camp supply runs are possible Wednesday – Friday before 10pm **only**. Before leaving, **check at the gate** if a pass is needed. The Gate will check with [Event Lead \(EL\)](#) on call and a re-entry lanyard will be issued at [EL](#) discretion.

Takeoff Procedure

Leave No Trace

[TTM](#) follows the [Leave No Trace \(LNT\)](#) principle (see [Ten Principles](#), page 19). Please take all your belongings, trash, and [gray water](#) with you and leave the site in a better shape than you found it.

Takeoff Launch Window

[TTM](#) officially closes at 11:59pm EST, Sunday, June 17th. All crew must vacate the site by 12pm EST, Monday, June 18th unless given explicit prior permission from Theme Camp Late Departure.

Vehicles can be driven on site on Monday to pack up. In case of inclement weather, a no driving / limited access policy to site will be implemented. Be prepared by bringing your own cart / wagon to transport gear out and to your vehicle. [L.O.V.E.](#) will be able to assist with shuttling gear to parking. Vehicles can **not** be parked alongside road to do so, but only be lined up at gate about 10 at a time.

Please look for announcements at [COCKpit](#) / [Gate](#), as this policy may slightly change, depending on situation.

Crew Equipment

[TTM](#) is an exercise in radical self-reliance. This means bringing everything you are going to need, which includes food, water, shelter, any medications, and hygiene products. You must take responsibility for your own well-

being and survival. Do not expect the community to take care of you. Though there are EMTs on site, they are only an emergency resource, so do not rely on them for basic over-the-counter medications.

Crew Inventory Checklist

Below is a list of items we suggest you bring with you. A burn requires a certain amount of preparation to be able to sustain you for 4–5 days of camping with minimal amenities. Please come prepared. While this isn't the Playa, the nearest store is a bit removed so pack what you need and extra.

Resources

Showers

There are no showers. To keep yourself clean, bring wet wipes or biodegradable soap. Please don't clean your dishes or yourself in the river since there are mussels in the river that are protected wildlife. (And these are also the reason you should wear river shoes while in the river as the mussels will cut you. They're mean that way.)

Food

There will be no food vendors. Bring plenty of food for yourself and to share (see [gifting](#), page 18).

Ice

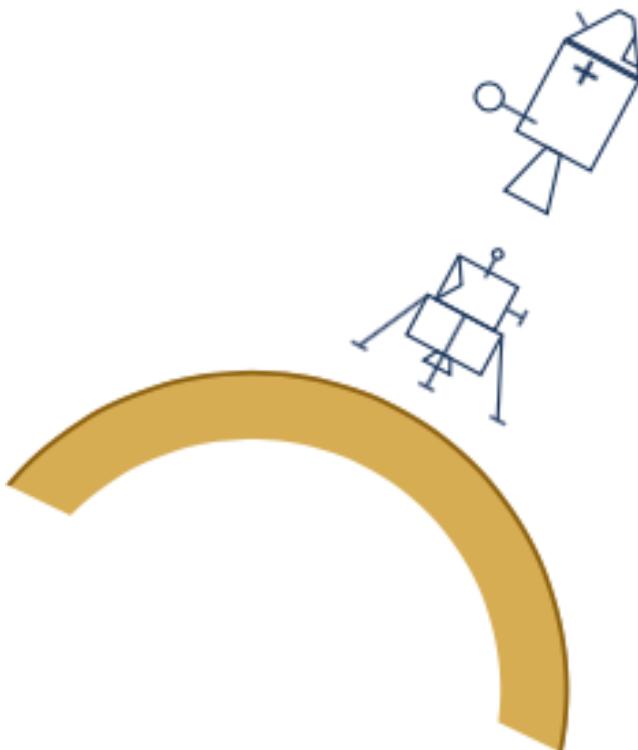

Ice is available twice a day for \$2 per 10 lbs bag. Cash only! Bring small bills please. Times tbd. Sorry, no pre-sales — yet.

Lost and Found

The Lost and Found will be at the [COCKpit / Volunteer Coordination \(VC\)](#) station.

Port-a-Potties

There are Port-a-Potties on-site. Please don't put anything other than one-ply toilet paper and human waste in the Port-a-Potties. You will find Port-a-Potties in multiple locations across the site.

3 Astronaut Training

Guidelines

We have few rules and kindly ask you to follow them, for your safety and those around and with you. Look at them as a compass to orient yourself by while drifting in the orbit of this event.

Safety

Safety is our number one concern and breaching perimeter is a **serious** offense we will handle swiftly.

Fire Safety

- **If you breach effigy or temple perimeter, you will be removed from the property immediately – no questions asked!**
- No open ground and / or unattended fires. They must be contained and off ground. Please bring a fire bowl for this purpose. If you see a fire that is unattended or out of control, contact a Ranger immediately.

River Safety

- Children under 13 must wear a flotation device.
- Children under 13 must wear water shoes (water shoes are highly recommended for **Anyone** for added safety and traction, especially if caught in a current).
- All minors must be accompanied by a parent or legal guardian when in the water.
- **Anyone caught committing the below two actions will be ejected from the burn immediately:**
 - No jumping or diving off the bank into the river.
 - No swimming after dark.

Figure 3.1: No swimming at night. Image courtesy of Judson Hall Photography, 2016.

No Pets

Spirit Crossing has a **no pet** policy!

Should you need a service animals assistance to safely navigate our premises, please let us know at the gate. A "service animal" is a dog (or other animal) individually trained to do work or perform certain tasks for a person with a disability.

Please be prepared to answer the following two questions so we may better determine at our discretion if your animal falls under the Service Animal Category, and in order for us to be in compliance with ADA regulations:

- Is the service animal to the direct benefit of the disability?
- What tasks and what work is the animal trained to perform in direct relation to the disability?

If your animal falls under one of the following categories, you will not be able to bring it into the festival grounds.

Service Animals are **not**:

For your convenience, Scooby Shack Kennel is 20 minutes from Sneedville and can be reached at 423-921-0611.

Thank you for your cooperation and understanding!

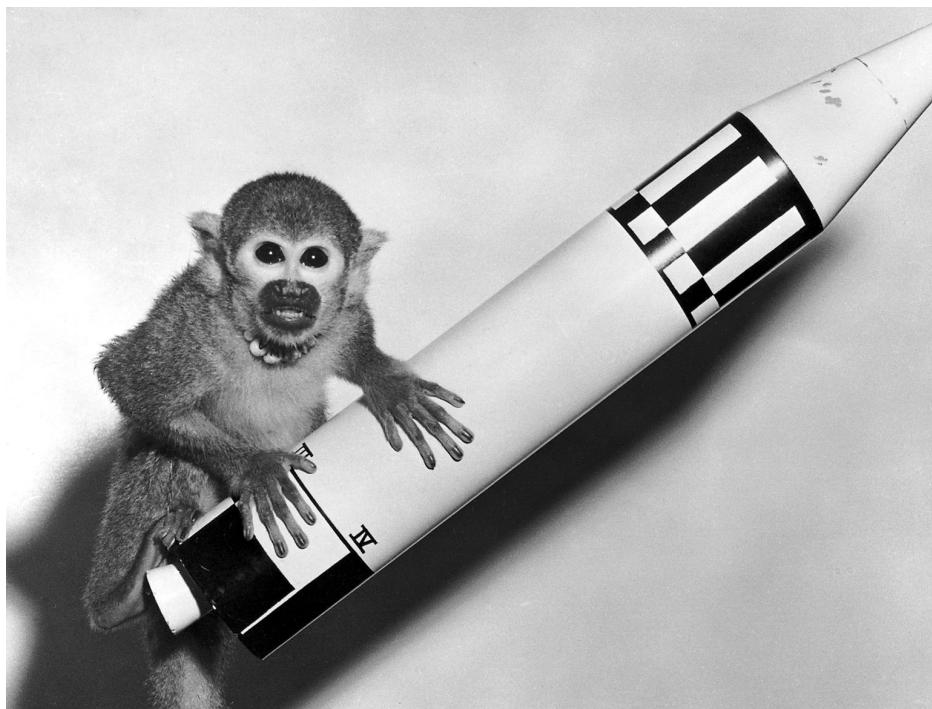

Figure 3.2: Miss Baker was a squirrel monkey who went into space and back in 1959. This is her on a model of Jupiter AM-18, the rocket that took her into space.

Respect the Laws of the Land

Spirit Crossing, and Sneedville, are kind enough to be our home. Here are some helpful tips on respect:

- While the porch and patio may be used for specific team lead functions, the property owners house is off limits to participants. Please be respectful of the land and grounds.
- Although held on private property, TN Nudity Laws still apply. To The Moon is an all ages event so please plan on wearing pasties, bikinis, loincloths, etc.
- Please respect the land, the river, and the community. Obey the speed limits and be courteous to those around you.
- When in doubt, practice **consent!**
- TTM is an all ages event. Those who are 21 or older will have a special wrist band indicating that they are able to legally consume alcohol. Please consume in moderation.

Camping

You may not camp in your car. Please bring a tent or RV / trailer. Cars may only be brought on site with approval.

Gray water

There are no plans to dispose of gray water on site. Each participant is responsible for [Pack in/pack out \(PIPO\)](#).

Code of Conduct

TTM now has a Code of Conduct. You can find it on page [21](#).

Minors

Minors must be accompanied by a parent or legal guardian. If they cause problems during the event which lead to possible safety issues or are a severe nuisance to others, we may ask you to remove the offending minor, possibly your entire camp. Minors are NOT allowed to use, play with, operate nor hold fire, fire props, fire effects and pyro, including poofers.

Fireworks and Effects

Fire effects with registered Theme Camps only, please.

Recharging batteries for medical equipment

Those with CPAPs and electronic scooters will have to make their own arrangements to recharge batteries. TTM does not provide battery recharging stations for medical equipment.

Some theme camps have generators, and may allow use of a spare generator plug for recharging medical equipment as a way of [gifting](#). Home Depot and other companies also rent generators. Moreover, there exist solar panels for recharging CPAP machines, though those can be prohibitively expensive.

Gifting

This is a gifting community, providing refuge from everyday societal perils. Once you're inside, no commercial activity takes place. Which is part of the charm, and the point :) Sometimes, there is a bit of a misconception of "Oh, so it's a barter system?" – Actually, it's not. It's a "Gifting" Principle. You gift without the expectation of a gift in return. You gift something to someone because at that moment, you feel the other person should have the very thing you'd like to give.

Photography

Please respect the right of others who may not wish to be photographed. Ask **permission!** If you see someone with a **blue** wristband, that is a **no photo** policy indicator. Do not take pictures or video of participants wearing them!

Sound

To make this event enjoyable for all, amplified sound is limited to 300 Watts producing 90 db at 20 feet. All amplified sound is to be reduced after 4am nightly to allow room for acoustic and ambient sound and to limit the possibility of neighboring sound complaints.

Wristbands

You will receive a wristband when you arrive at the **Gate**. Different colored wristbands will identify you as being over 21, under 18, etc. Wristband colors also indicate if you don't want your photo taken.

You must keep your wristband on at all times. See the **Gate** if you need to replace your wristband.

Vending

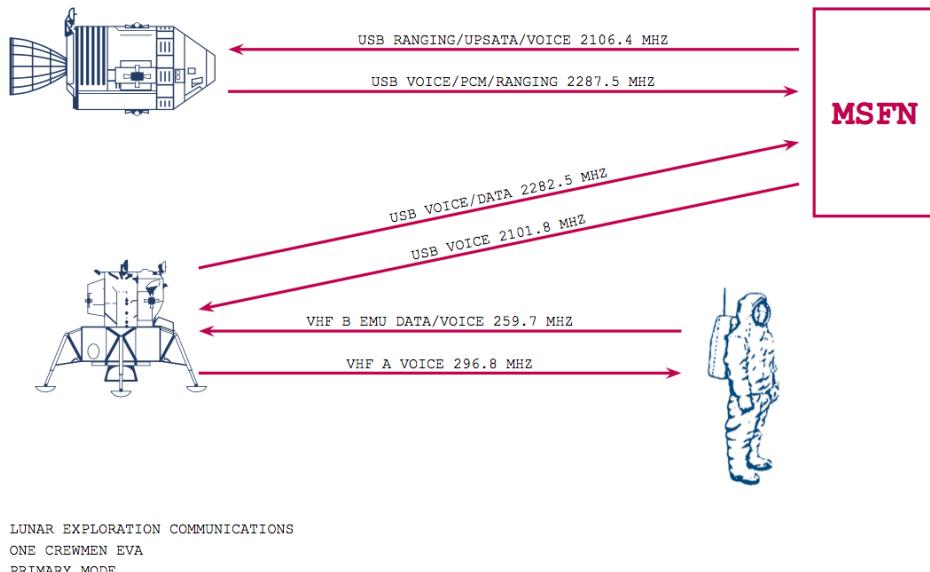

No vending, selling, or promoting is allowed at the event.

Community Standards

The Ten Principles

Table 3.1 enumerates the 10 Principles of **TTM**. Funny thing about those: they are not meant to be chosen at random to suit ones need, mood or agenda, but according to our interpretation were created to work together as a whole. Meaning your right to radically and freely express yourself ends when your expression infringes upon another participant to do the same.

In other words, they're not a "Getting out of jail free" card, nor a permission slip to be a dick. So don't be a dick, hiding behind one or two principles.

No.	Principle	Description
1	Radical Inclusion	Everyone is welcome, all types, all kinds, friends, strangers, and in between.
2	Gifting	Gifts are unconditional offerings, whether material, service oriented, or even less tangible. Gifting does not ask for a return or an exchange for something else.
3	Decommodification	Hand in hand with gifting, burns are environments with no commercial transactions or advertising. Nothing is for sale - we participate rather than consume.
4	Radical Self-Reliance	You are responsible for you. Bring everything with you that you need. Burns are an opportunity for you to enjoy relying on yourself.
5	Radical Self-Expression	What are your gifts, talents, and joys? Only you can determine the form of your expression.
6	Communal Effort	Cooperation and collaboration are cornerstones of the burn experience. We co-operate to build social networks, group spaces, and elaborate art, and we work together to support our creations.
7	Civic Responsibility	Civic responsibility involves the agreements that provide for the public welfare and serve to keep society civil. Event organizers take responsibility for communicating these agreements to participants and conducting events in accordance with applicable laws.
8	Leaving No Trace	In an effort to respect the environments where we hold our burns, we commit to leaving no trace of our events after we leave. This means everything that you bring with you goes home with you. Everyone cleans up after themselves, and whenever possible, we leave our hosting places better than we found them.
9	Participation	The radical participation ethic means you are the event. Everyone works; everyone plays. No one is a spectator or consumer.
10	Immediacy	From the Burning Man website : "Immediate experience is, in many ways, the most important touchstone of value in our culture. We seek to overcome barriers that stand between us and a recognition of our inner selves, the reality of those around us, participation in society, and contact with a natural world exceeding human powers. No idea can substitute for this experience."

Table 3.1: The 10 Principles

The 11th Principle – Consent

TTM has adopted the 11th Principle, Consent¹.

- Touch: Just because you hugged someone yesterday doesn't mean you can surprise them with a hug today. "Surprise contact" isn't always wanted, even if it's affectionate.
- Kink: Consent for one thing isn't consent for another. If I said you can spank me, that doesn't give you permission to grope me.
- Sex: Consent can be revoked once it's been given.
- Gifts: Disclose what is in your gifts, even if it's just essential oils. Some people have sensitivities.
- Foods: Disclose the ingredients, one person's innocuous ingredient can be someone else's allergy.
- Photography: Ask before taking pictures. Remember consent to take a picture is NOT consent to post it on your blog.

Code of Conduct

TouchBass LLC / To The Moon Code are introducing a new Code of Conduct for 2018 and beyond. If you are unable to agree to these terms and our policies, we'll gladly issue a refund for your ticket. Please contact us at connect@tothemoonburn.com.

Attending privileges of To The Moon and related events sponsored by TouchBass LLC will be revoked if a participant fails to respect other attendees or behaves in a way that endangers themselves, the event, or the broader community as a whole. Damaging behavior is not limited to violence or consent violations, but rather includes ALL behavior detrimental to The Moon as a whole, the burn itself, affiliated events, TouchBass LLC, its BOD, Team Leads, and volunteers and other participants by means of any actions in direct contradiction to and out of alignment with our mission:

To The Moon exists solely to create a platform allowing its participants to unfold their creative wings and

embrace and nurture a community striving to share their passions, unique gifts and talents and come together in celebration to do just that.

We want to impose upon your freedoms within our chosen community as little as possible, but need to protect our members and event at the same time. The following are our policies designed to do just that. If you experienced anything in violation of these guidelines, please fill out our incident report form to help us investigate.

Please note: 3rd Party Incident Reports are not accepted. The report has to be submitted by the person directly involved in / with the incident. If you feel the need to report something as a 3rd Party, please email us at connect@tothemoonburn.com.

We're also well versed in the [11th Principle](#) and are happy to discuss! We are here to clarify any questions you have regarding general operating procedures on the Moon.

Tbase / Sanctuary

[Tranquility Base](#) provides a calm, safe space for burners who need a chance to process and integrate their experiences at and responses to the burn. We provide a supportive environment for anyone who needs reassurance, assistance, or just some peace and quiet to work through a current experience or their response to a previous experience. A burn provides a multitude of stimuli, and [Tranquility Base](#) offers a chance to step back, ground oneself, and experience the transformative process than being home can bring.

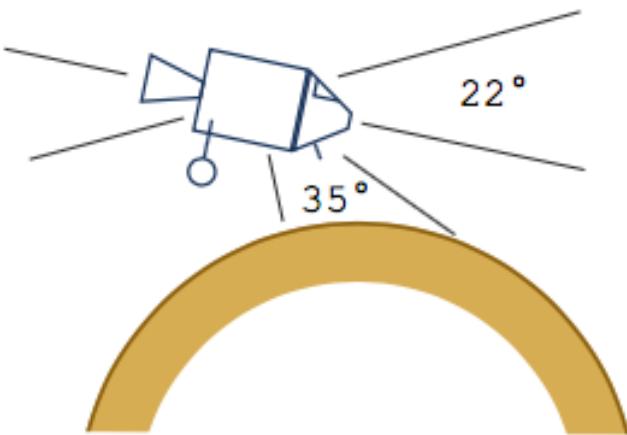

Volunteers should be prepared to be sober and unaltered for the duration of a 4-hour shift and able to remain calm when dealing with participants who are distressed, emotional, or experiencing an altered perception of the world around them. Anyone who has previously done Tranquility Base training for Alchemy or Euphoria, Sanctuary training for Ignitel, Transformus, or Flipside, or Zendo Project training for Burning Man can sign up for volunteer shifts now and only needs to attend a brief refresher session and an overview of To The Moon radio protocols (if you have done training for harm reduction/safe space teams at other burns, please contact Mango, the Tranquility Base Team Lead, to discuss your background). If you have not done training, please plan to attend one of the on-site training sessions on Thursday or Friday

evening, and you will be able to sign up for volunteer shifts later in the burn at the end of the training or you may sign up for shifts now as long as you attend a training before your shift is scheduled.

Please plan to attend one of the on-site training sessions.

This team meets at [Tranquility Base](#), of course.

Lead: Ann "Mango" Grens
Co-leads: Jo Herrera, Stan Davis
Contact: tbase@tothemoonburn.com

Temple

This crew assembles and deploys the [temple](#) to be burned on the last night of [TTM](#).

Please note that a few hands are needed to help clean up on Monday after the Temple burn from the night before. Please be sure to pack up your camp before reporting for this shift as the burn will be ended and this shift requires "late stay" permission.

Lead: Michael "Lunar" Luber
Co-leads: Matthew Horner
Contact: temple@tothemoonburn.com

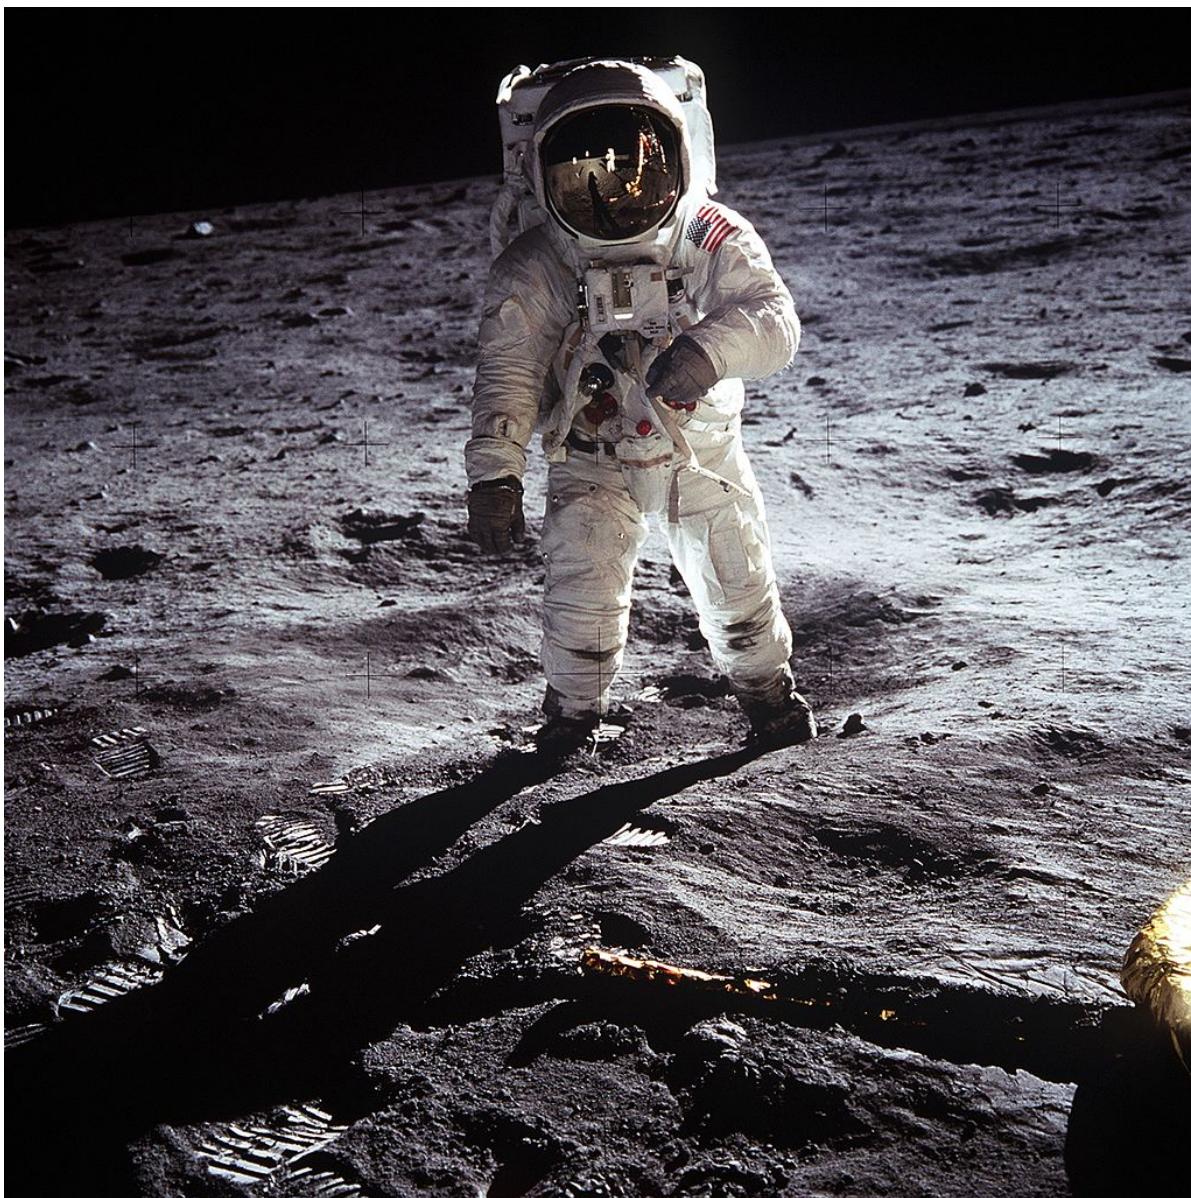

Volunteer Coordination

These volunteers wrangle participants of the burn into needed volunteer positions to keep things running. VCs help people check their scheduled shifts as well as sign up for shifts. If you know how sexy volunteering is and want to meet like minded folks, this is a good team for you! We keep volunteers informed of updates during the burn and help teams fulfill unforeseen volunteer needs as they could arise during the burn.

This is also a place for people to come get information about burn happenings, times, locations, and whereabouts to things such as: workshops, theme camps, and events. Sometimes we even help people find themselves!

This team meets at the [COCKpit](#).

Lead: Tonya "Dusty Lashes" Weisenseel
Co-leads: Julie Reach, CeCe "Platinum" Hue
Contact: volunteer@tothemoonburn.com

5 Volunteering

No burn exists without volunteers and volunteers are our heroes! We have no hired help other than security and everything we do is done on a volunteer basis. This goes for all the things before, during, and after the burn. All the teams that you can volunteer for are described in the "Crew Manifest" section starting from page 24.

There are two ways to volunteer:

Before the event you can sign up from the available volunteer activities by going to:

<https://www.signupgenius.com/tabs/33773df01a4c3edc42-tothemoon>

During the event you can go to the **VC** folks at the **COCKpit** to sign up for an available volunteer slot.

EARLY ENTRY FOR VOLUNTEERS

If a participant has a volunteer shift on Wednesday, they will be granted entry at noon on Wednesday.¹ If a participant has a volunteer shift beginning before noon on Thursday they will be granted early entry on Wednesday after 3 pm. This list will be given to **Gate** from **VC** before **Gate** opens on Wednesday.

All participants must be off site by noon on Monday unless they have a shift on Monday after noon. In which case they will need to have permission from **VC** or one of the **event leads** to stay on site for that shift, and should stop by the **VC** tent on Monday before 10 am to get their approval. All late stay volunteer must also have their camp packed before their shift on Monday and be prepared to leave immediately following that last shift.²

¹This is mainly **Gate** but a few other teams have a few volunteer shift scheduled for Wednesday for set up.

²There are other early entries granted for **theme camps**, **DPW**, **team leadss**, **BOD**, etc., but those lists will be given to **Gate** from appropriate lead for that team. This info is just for those volunteering first shifts on teams that start when gates open or before.

The flowers are made of metal cans, plastic water bottles, lids, etc, and are then painted with bright colors. This cheery installation aims to bring awareness to the importance of recycling - each flower is a visual representation of a piece of trash that will not end up in a landfill or the ocean. I hope to inspire others to view one-time use packaging as valuable material that can (and should be) reused in creative ways!"

Memento Serenous by Niklas "Unicrash" Gahm

A burn is a peak of Eristic Energies as we are swept up in the delightfully energetic cavalcade of art, with rare moments of self-preservation and calmness at the temple. But what if we could collectively generate a sound or collection of sounds that center us in the non-silence? SINGING BOWLS. SO MANY SINGING BOWLS. This is an installation entirely focused on the clarity and crispness of a sound delightful. We do

not know where this sound may take us, but it can serve as a centering call to rally our spirits as we grow weary with exertion in the expanding exploration of a burn unknown.

Patchwork Tee Pee's by Rachael Marshall

I created Patchwork teepees to bring special energy to the space, experience special moments with the people around me, and to create space to open people up and be free to express themselves through the beauty of art. The traditional teepee was not only an efficient structure, but also a symbolic expression of humanity's relations with the natural and spiritual worlds. Especially in the case of ceremonial teepees, the process of obtaining hides and poles was and is shaped by prayer and ritual guidelines. Symbols and story drawings were often painted on both the interior and exterior of the teepee, and these drawings were often the expression of visionary experiences. Like the Buddhist stupa or the Hindu mandir, the space created by the teepee is itself symbolic of the wider cosmos: time and the seasons, space and the four directions are associated with the circular floor space of the teepee. In its circle are structured many of life's activities, from the most mundane to the most sacred. The circle of the teepee is a profound symbol of the interdependence of all of life. I have built the teepees for everyone to come

and create space in and share with everyone else to collectively build energy that will grow and resonate through the burn.
